The G-Pack (Group)

The Incubator 2.0

Your Project-Launching Workshop

Who Does What?

You can use the **Who Does What?** in two ways.

1. Make and update a list of all the things the whole group needs to do.
2. Each person in the group can use it to keep track of everything that needs to be done in their "committee". Ex. Marketing, fund-raising, or production.

Task	Who will do it?	When will you do it?
